Navigating Your Akashic Records to Create an Abundant Life – Akashic Radiance Healing™ is a multi-dimensional transformation using the chakras, energy bodies, and divine qualities. We will explore Abundance from within the Akashic Records. All of us at some point in our life, or even currently, have experienced scarcity, resulting in isolation, loss, fear, anger, unworthiness, etc. Remember that abundance comes in many different forms such as relationships, love, health, wealth, money, career, self-esteem, etc. You will choose an area of your life where you are lacking in abundance to explore within your Akashic Records. During this session we will clear your specific karmic patterns, attachments, and loyalties to your lineage, in this and any other lifetimes which have bound you to pain and suffering. This will connect you to infinite abundance, love, and possibilities, and enable you to learn with grace and compassion.

Creating Authentic Power through Spiritual Partnership – The world as we have known it is changing and, with that, the possibilities open to us are expanding. Our expanded awareness comes with both opportunities and responsibilities towards ourselves and others. You may have found dissatisfaction with your relationships and not really understand why. Maybe you want to connect at a deeper level and can't seem to be able to do that, or the people around you can't meet you where you are. You may undertake regular personal or spiritual growth work and still find you want more substance and depth in your relationships. The spiritual partnership guidelines provide a framework for personal growth, living authentically, and experiencing joy and fulfilment each day. The activities in this workshop will assist you in deepening your understanding of yourself, your relationships, and how to navigate within the earth school.

All sessions will be recorded and will be available to those who have registered for 2 weeks after the webinar. For information about the timetable and to make a booking:

Annette Rundle and Michael Steffensen

Annette discovered and developed her awareness and understanding of the spiritual aspect of her being, through the Petone Spiritualist Church which she joined in 1996. She found the Spiritualist Philosophy had no dogma, simply a set of Seven Principles, channelled from Spirit that could be applied to life as it unfolded. Along the way Annette has attended and run circles, had workshop involvement, and works on platform giving addresses and clairvoyance at Petone and at other centres. Service to Spirit is a lifetime passion and she always works with personal integrity connected to the highest spiritual energy.

Michael is a work in progress and that is what Life on this planet is all about. Progress, moving forward, and evolving. Every day is about change, about stepping into yourself and this is what my aim is physically and spiritually. Teaching through my experience, which includes being Minister at the Petone Spiritualist Church, along with Spiritual Healing Coordinator, Circle Leader, Spiritual Medium – and a Jack of all ‘Spiritual Services’.

The Seven Principles: Foundation for Change

– This workshop presents the principles that were channelled from Spirit back in 1871. These principles can be used for guidance on our journey through life, particularly in these times of change. They are not directives; they are observations that participants can use as a touchstone or reference point as they make their individual choices on their own life’s path. Change is with us in full force at present on the earth plane, we may not know where it will lead, but reference to the principles can help us cope with more confidence. Each person is an individual, and as such will make their own choices through life that they will learn from.

Annwyn Hanham

Annwyn is an activator of vibrational frequencies and formulas that impact on the shifting consciousness of Humanity. As a sound master and writer, Annwyn inspires others during this time of accelerated spiritual development on Earth. A published author, her first book describes her personal journey through grief as a powerful catalyst for a 'rude awakening.'

Through her son in Spirit, Annwyn learns of Eternal-Universal-Love, and that there is no death or separation. Her second book is nearing completion and features largely around Glastonbury.

www.annwynvibe.com

Join her as she shares her grounded, humorous, practical wisdom on not merely surviving the changes that are filling our lives at this time, but actually thriving and shining our light! Annwyn's guides support her teachings with channelled Sound Healing of Toning and Light Language to help you embody the vibrational frequencies of allowing change. Barbara Hand

Barbara started her spiritual journey in 1996 when she joined Petone Spiritualist Church. She went on to run workshops and development groups, and was President for six years. During this time she also coordinated the spiritual centres across Greater Wellington to run various events.

Barbara was National Treasurer of The Spiritualist Church of New Zealand and is now the Registrar and Newsletter For Spiritualism New Zealand. In her personal life, Barbara is a partner in Spirit Wings with Diane Thomson. Together they run workshops, development groups, retreats, fairs and the Soul Food Café in Lower Hutt.

Using the Violet Flame - The Violet Flame is one of the most powerful energies available to humanity today. Through a series of meditations, learn how to use it to clear negative energies from yourself, your home, your environment, Mother Earth and our atmosphere. Negative energies don't just relate to those we automatically think of such as anger, fear and sadness. Everything on our earth plane is perfect but many forms of negativity are placed on top of that perfection such as the fungus on plants, the scum on water, the mould on the earth and injuries and illness in ourselves. These also can be released with the Violet Flame.

The Chakra Connection – As spiritual beings in a physical body, we are energetic by nature and this is reflected through our chakra system. We have a total of 144 chakras in the body whose function is to maintain our health and body integrity. The chakra system is directly linked to our physical body and when you understand you become unwell from the outside in, then the chakras take on a whole new meaning in regards to your health. In this talk, I will be taking you through each of the 7 main chakras and how they affect your body, your health and will discuss natural recommendations for each of the chakras.

Jupiter's Journey through the Zodiac – Planet Jupiter is the most fortunate and auspicious planet in your chart. It is where you find your luck if you know how to harness the energy of this planet. In this talk, I will be talking about the mythology of Jupiter and how you can access the gifts of abundance that Jupiter bestows via your own chart. I will also talk about the current cycle of Jupiter in Pisces for 2022 and Jupiter in Aries for 2023. Depending on attendance, I will discuss Jupiter in each chart.

Christine Carter

Christine has been a spiritual explorer for 45 years, 30 of those living on the road in a motorhome till recently.

The Human Design page on www.08002bwell.co.nz explains the essence of how Human Design can make a difference in your life. As one of only a few Professional Analysts here in New Zealand Christine can offer the Foundation Readings along with courses designed to assist your experimentation with becoming your true self that you were born to be without the family and societal conditioning that takes you off your life path.

What is human design? – Human Design is the “Science of Differentiation”. It is a system or tool that assists us to know our selves better. It is not a belief system. It is like a road map that gives you a Strategy to follow so you can be more of your authentic self. Then it also provides a way to follow your own inner authority when it comes to making decisions. At first you need to experiment with these new ways of being. Mostly before Human Design we lived our life through listening to our mind tell us what to do. This doesn't always work out the way we would like and can adversely affect our health. This is where dis-ease comes from. Since exploring and experimenting with my own design, I have experienced so much more ease in my life. Understood that everyone is wired differently and to be authentic needs to operate in their own unique way.

We hope you can join us.

Elisabeth von Madarasz

In perfect alignment with her spiritual purpose, Elisabeth came as a four year old refugee from war torn Hungary to the sacred land of New Zealand, the land of the First Dawn for the planet.

In 1998 Elisabeth founded the Academy of Shamanic Studies NZ. She shared these ancient wisdoms and technologies over 30 years around the world and through Webinars and Web TV. In December 2018 she was inner guided to dissolve the Academy and give away all her products so she can now soar free of all form as a weaver of the Web of Oneness. Elisabeth is a visionary, facilitator, writer and healer. She assists people to identify their blocks and traumas and dissolve these back to source for their lineages and all the lifetimes involved. The Divine blueprints, DNA and programs can then be restored. The aim is to create quantum shifts in consciousness and evolutionary leaps for each to fulfil their potential and spiritual purpose for themselves and simultaneously their lineages and humanity – for ALL IS ONE.

Our New Earth Arising out of the Ashes of Covid – COVID is the catalyst for the current, corrupt systems and structures to dissolve themselves while simultaneously creating the leaders and communities of the New Earth. COVID is an opportunity for humanity to reset and choose again: to create life enhancing systems that honor and sustain all life. I was one of three people invited to co-create a portal, by Great Beings of Light in 2021, to seed the 9th dimensional New Earth template here in Aotearoa to then radiate out across the planet. It is the opportunity for each one of us to live Peace, Love, JOY and TRUTH to integrate this seeding for ALL, and the generations to come.

Gail Payne

Gail provides evidence of the existence of the Spirit realm, while delivering messages of guidance and support from those who have passed over to the other side.

Gail sat in her first Spiritualist Circle over 40 years ago. While she has travelled widely to study a diverse range of spiritual practices and healing modalities, Gail considers Spiritualism her home. Gail believes that Spirit's unique way of looking at a situation can be life-changing and reminds us of whom we really are at a soul level. Gail is humbled to live and work closely with Spirit. She is a platform medium at Spiritualist churches in Christchurch, provides mediumship at spiritual expos, and offers individual teaching and readings. Gail is also a Spiritualist healer, and Reiki practitioner.

Skipping Stones – At times of significant and constant social change, we often do not have the time, or the opportunity, to make decisions using our familiar methods. We may have to skip the experiences, adventures, resources and information, that we would have previously used to inform our decision-making. Gail calls this process Skipping Stones, and presents a spiritual toolkit to assist our decision-making during times of significant social and energetic change.

Gail Taylor

Kia Ora, "I AM" remains the most powerful statement one can make about themselves...For those who don't know me...I Am...a Mother, Grandmother, Great Grandmother, a precious Life experience in itself from which much wisdom has been gained. Many years ago, I asked Spirit. "What is it I do? – answer- "I am here to bring through the Christ energies to help heal, balance and restore on all levels." This has manifested in many ways far beyond my dreams, hence my Passion for Life and all it holds. I cannot imagine a day without my Divine connection with all that is. I am blessed to be a clear channel for Spirit- my 'Team' who lovingly guide my many Passions. I am an Intuitive Channel for all my Creations, be they my Paintings or Writings. I am a Published Author, Healing Facilitator, Teacher of Intuitive Painting and Mentor. I Am a lover of all Life in all its forms and cherish my Inner journey that reflects my outer reality. My favourite saying is still... "If it's not fun, I'm not playing..."

Energy Alchemy workshop – During this interactive workshop you will learn about Energy Alchemy – simple techniques you can use daily to transmute energy into a better state. We discuss the frequencies associated with emotional states, and what to do if you get stuck in a 'low vibe' for too long. We ponder on what is needed for true healing and learn how empowering it can be to become a master of your own emotions. We all have a go at playing with the frequencies around us and learning about popular transmutation symbols such as the violet flame. We lightly discuss science behind how to transmute the frequency of your food & water into something better for you. Learn how to become your own truth and lie detector. I will send an activation to all attending and then invite you to participate in an experiment to keep a picked leaf alive for 30 days with nothing but energy alchemy from you.

Live in your heart – embrace the hearts intelligence to guide you through life 5. Trust yourself - you are the creator of your reality 6. Accept that everything happens for a reason - there are no coincidences or right or wrong in consciousness 7. Live your truth – you know what is best for you, start living it 8. Keep your energy field clear - choose who you exchange energy with 9. Make friends with your shadow - it shows up to help you heal 10. Stay connected to source, spirit, the universe - they have your back
 <p>Jan Nalder Jan has spent a lifetime saying ‘I wonder why’. Fortunately, the answers matter less than finding the right question. The questions have led Jan into ever more intriguing studies, including several strands of learning. Music, art and spiritualism are current enthusiasms.</p> <p>Educational Kinesiology® provides Jan with the perfect way to place anything she has studied into a framework as the ‘menu’ for facilitating change, be it personal improvement, assistance for animals, communicating with plants, or working with spiritual assistance on larger issues. Jan thinks of herself as a teacher/healer.</p>	<p>Balancing: A Brief Foray in Educational Kinesiology – Kinesiology is a family of modalities which are concerned with making beneficial change in the physical, emotional, mental and spiritual status of the learner who is somehow stuck but wants to move on. Most employ muscle checking to elicit plain information from the body-mind-spirit system which is explicit to both the learner and the facilitation practitioner. In this workshop, you will learn how to work with the second method of noticing instead. We will learn a five-step system in a collective balance, then apply it to a personal balance, probably centering around health, behavioural change, stress management, movement improvement or spiritual development.</p>

 <p>Jane Stephens As a spiritual artist, I work to produce portraits of relatives and friends now in spirit, or inspired art that is sent to me by the spirit world: my guides choose the colour I am to use and guide my hand while I paint or draw.</p> <p>My focus at the moment is on helping others to become interested in spiritual art and to develop their gifts, as I have found that there are many budding spiritual artists among the people I have met. During 2019, I developed and taught an interactive online course in spiritual art which was hosted by Spiritualism NZ. The students from that course were keen to continue and I now lead a circle for the development of spiritual art.</p>	<p>A Picture can Lead to a Thousand Words – This workshop will help you to explore the ways in which you can extend your mediumship into the wonderful world of Spirit Art. We will look at existing pictures to form our own impressions about peoples’ lives and times. We will then record those impressions in the form of our own new pictures, using shape and colour, with some words to fill in the gaps! Drawing skills will be useful but are not essential. The activities will be light-hearted and fun, and should suit all levels of mediumship. If you are interested in this workshop, you will need to have paper and colours (pencils/pastels) available.</p>
 <p>Janine Savient Janine is an Intuitive Visionary, a Seer, Published Writer, Speaker and Facilitator! A ‘Messenger for Love’, is what she calls herself, as Love is her Guide, Teacher, and her Truth! Janine has been awake to the truth of herself and this reality since she came here! Her focus and passion are found in supporting all those ready to awaken to themselves also. Through her awareness of life as a multi layered reality, and herself as a multi-dimensional Being, Janine shares her knowing with those ready to deepen their own life experience. Her mission is to help raise the vibration here to Love, through all that Love brings... (Truth, Trust, Compassion, Unity, Gratitude, Courage, Thriving, Joy, Peace, Freedom) ... and this is done through the opening of minds and hearts around this planet. The new emerging world is created via these beautiful inner doorways through which pure Love enters this reality.</p>	<p>The Inside View (Looking in, to find out what is really happening in our world) – What is this time of great change really all about? Why is it happening? We will discuss the changes happening right now in our world and more importantly, inside ourselves. Why it’s so important that we keep our focus inward and not become distracted by getting caught up in the world narrative. It’s a big subject and could appear like it has many parts, many truths! However, there is only one source of truth and that is found within each of us! Who are you? Why did you come into this time NOW? What is your part in all that’s going on in this world? The world you are living in is showing up now as having a deep level of untruth as its foundation. This ‘untruth’ has formed your beliefs and understandings of who you thought you were and what you believed life was about! As you awaken now, you are realising how far away you have been led from what’s real, within you. I will share with you my knowing of life, and then we will have a question-and-answer segment, followed by an inner journey to support your deepening connection to your own personal source of truth. The Great Awakening is ALL ABOUT YOU ... awakening out of the dream and into reality! A reality that is only now, forming through your own awakening / opening heart.</p>

Jansie Bond

Jansie is a “forever student” and as an Energy Coach helps many people to understand and manage their energy on a personal and corporate level. Through her healing modalities she teaches people to understand we are light beings with various frequencies and vibrations.

When we work with the divine spark in all of us, we realise that our physical body is the only place we can live on this earth and we owe it to ourselves to learn self-love and ways to take care of our physical, mental and emotional bodies. As a colour therapist, self-discovery facilitator, yoga teacher and author she creates the peaceful space for people to change their stressful lives into lives filled with health, happiness and love.

“Everyone should consider their body as a priceless gift from One who loves us above all; a marvellous work of art, of indescribable beauty, and mystery beyond human conception, and so delicate that a word, a breath, a look, nay, a thought may injure it.”

Astro-Biochemistry, the Miracle of ME (My Energy)

– In this workshop the age-old wisdom of Astrology and Tissue Salts have been combined, bringing you an easy and practical way to take care of your body on a cellular level. People belonging to certain star signs (*sun signs*) tend to be deficient in certain salts. It is also important to look at the opposing sign and its disorders since these have an important influence on the individual, especially round their birthdays, when the opposing elements are at their peak. As Energy beings we strive to expand our energy into ever higher dimensions, by learning how to manage our energy. During our life’s journey we become aware of the vibrations of our thoughts, feelings and our words. In the word Miracle hides the sentence: “I am a Miracle”. Managing our energy to heal ourselves physically, emotionally and mentally makes our spirits sing. Join me in this workshop and experience the wonderful intelligence of your body to heal itself.

It Must be Love: Dragon Love – Come and join us and discover through meditation and conversation the difference that we can make for Mother Earth and the collective when we connect with this very ancient, powerful and loving energy of the Dragon. The gift of giving and receiving is an intricate part of creating and celebrating the connection we have with spirit and each other. Meet your Elemental Dragon guide and let's work together for humanity but don't worry it's not all work, there is also lots of fun to be had.

We'll record the session, and afterwards I will collate this wisdom into a beautiful e-book, which can be shared with others. Sika

Sika is a sound artist based in the South Island, dedicated to creating music that enhances our relationship with nature.

Sika has toured internationally since 1993, offering sound journeys and concerts. The didgeridoo forms an important foundation for his music, however he also uses drums, native flutes, voice and a broad selection of both traditional and historical Maori instruments. Giving voice to wood, skin, bone, stone and shell, his work reflects a lifetime of listening to the rhythms of nature. Other sources of sound such as water, fire, trees, animals and wind are used with the ultimate intention to build soundscapes that enable us to leave time. After years of gathering and making instruments, Sika has recorded ten solo albums and recorded as a guest artist on dozens of other projects. As a collection these projects tell the story of a man who has followed his yearning to create a life grown from the roots of the past, but sowing the seeds of the future.

Full Moon Sound Journey – What is a Sound Journey? A Sound Journey is an inner experience. Unlike listening to a concert, people generally lie down, close their eyes and listen to Sika playing sounds. Sika has been offering Sound Journeys for over 30 years. He's best-known for playing the didgeridoo, which has an ancient, grounding quality. Participants often feel the vibration in their bodies, as Sika moves around the space while playing. He also uses less familiar instruments such as Māori Taonga Puoro, which can have haunting and ethereal 'voices'. This adds to a sense of mystery and helps us drop into meditative, wordless states. In essence a Sika Sound Journey is unlike any other and is akin to being immersed in your own movie with soundtrack. *"Given the chance to watch your own life movie complete with music score, who wouldn't want to take this experience?"*

 <p>Sonya Barron My work is dedicated to helping you reconnect with and bring forth the wisdom that has been inside of you the whole time. I've had the privilege to apprentice with a dreamworker in her late 80s who had been tending dreams for over 40 years.</p> <p>I dived deep with Indigenous dreamers who generously shared their wisdom and love for living in harmony and balance with all of life, showing me how tending to our night dreams was truly an act of benefit to all including Mother Earth. There is still much to learn about dreaming, come along and see how your dreams want to guide you.</p>	<p>The Power of Working with your (Night) Dreams – Working with your night dreams helps you to develop deep self-trust, embrace uncertainty and illuminate your path forward. Each night your soul gifts you with guidance, with maps, with answers to your life's deepest, most private questions but most of us have lost the art of listening to and knowing how to be with the wisdom our dreams contain. As we pay attention and work with them they can give us an internal strength to help us navigate these changing times. Dreams work with us on all layers of our being, during times of great change there is power in anchoring yourself into practices that work with you on a level deeper than the thinking mind. For those who feel like they don't dream or can't remember their dreams in this presentation I'll share a few simple practices that will help reconnect you to the flow of images, symbols, themes and emotions that occur while you are sleeping. For those who are already strong dreamers I will be sharing some insights and practical tools to help you strengthen your practice. There are many 'techniques' out there that teach you how to interpret your dreams, however I am interested in connecting you to your sacred truth, your way of being in the world and working with your dreams in a way that nourishes all parts of you.</p>

What happens when you are called to help those with haunted land, houses or objects? This discussion group will be about all that and your experiences. Sue Boyle has cleared over 130 places and has many fascinating stories about how it's done and the different reasons why spiritual energies stay around earth-side.</p> <p>What do you Want to Know? – A trance channel session from the Guides of Sue Boyle. They will engage with you to answer your questions, discuss your journeys, and give guidance. This is an opportunity to talk to the Guides direct who bring humour, love and peace. Have your topics at the ready for the workshop you direct.</p>
